

## Description

### Features

- Multi-function indicator, suitable for more complex industrial weighing applications
- Wide range of Serial, Ethernet and optional FieldBus interfaces allows simple, low cost connection to operating networks and peripheral devices
- Weighing, counting, checkweighing, recipe/filling (10 recipes/10 steps), totalising, peak hold, remote display, in-motion weighing, simple weighbridge operations and single level pack runs applications as standard
- Numeric keypad with 3 function keys and 100 numeric PLUs for easy operation of most popular applications
- Up to 8 fully flexible inputs and outputs – can replace a PLC for a simpler, more reliable system

### Specifications

- 25mm high LED display, with graphical checkweighing indication and operator prompts
- Up to 3 serial interfaces, selectable for RS232, RS485, RS422 or 4-20mA Current Loop, Ethernet TCP/IP as standard, plus optional DeviceNet, ModBus TCP, ProfiBus DP, Ethernet IP and ControlNet
- Connects to a wide range of analogue load cells – maximum 16 load cells with optional second scale support
- Optional electronic archiving
- IP54 rated, dust resistant plastic case, suitable for desk, wall or pole mounting

### Approvals

- Trade approved for 10,000 divisions
